```
void Celcius(double temp){
    double celcius;
    celcius = (temp-32)/1.8;
    printf("%lf Grados Fahrenheit = %lf Grados Celius.\n",temp,celcius);
}

void Fahrenheit(double temp){
    double fahrenheit;
    fahrenheit = (temp*1.8)+32;
    printf("%lf Grados Celcius = %lf Grados Fahrenheit.\n",temp,fahrenheit);
}
```
